Q1 2015 Revenues

New quarter of strong organic growth : +13.0% at €48.5m

Consolidated revenues in €m	2015	2014
First quarter	48.5	40.8

Levallois, 13 May 2015 : the **Keyrus Group** achieved revenues of 48.5 million euros in the first quarter of 2015, a rise of 19.2% as compared with the first quarter of 2014. At constant structure and exchange rates, the increase is 13.0%, driven by both sectors of activity.

The Large Account activities increased by 24.0% as compared with the first quarter of 2014 (+15.3% at constant structure and exchange rates).

Mid-Market activities saw their revenues increase by 6.9% in the first quarter without a change in structure as compared with the 2014 financial year. This year the activity benefits from the obligation placed upon enterprises to comply with the new DSN regulations (*Déclaration Sociale Nominative/Nominative Social Declaration*).

For the rest of the 2015 financial year, **Eric Cohen**, President and CEO, comments:

"In a market which looks more promising for ESNs (digital services companies) in 2015 with forecast growth of +1.8% in France (Syntec), Keyrus's know-how in terms of Data Intelligence (Business Intelligence, Big Data & Analytics), Digital Experience and Management & Transformation meets our clients' requirements perfectly and should, once again, allow us to post above-market growth.

In this context, we are confident, whilst at the same time remaining focused on sound management and on the service quality of our assignments".

Keyrus will hold its Annual General Meeting on 22 May 2015 and will publish its second quarter revenues on 24 July 2015 after market close.
