Levallois-Perret, 23 January 2020: an international player in the fields of Data Intelligence, Digital, and Consulting on the Management and Transformation of enterprises, the **Keyrus** Group announces the launch of **Keyrus Life Science**, the first Connected-CRO (C²RO) designed to facilitate and accelerate the digital transformation of enterprises in the Health sector in the Data-Digital era.

*"The development of **Keyrus Life Science** (formerly known as **Keyrus Biopharma**) is based on the premise that it is only by giving meaning to data that mankind can solve the major health issues it must tackle as quickly as possible", declares Michèle **Paque**, General Manager of **Keyrus Life Science**, Belgium. "**Keyrus Life Science** is a unique Connected Clinical CRO that enhances the performance and speed of execution of clinical trials by valorizing extended data."*

Keyrus Life Science helps connect industry expertise, Life Data Sciences and Digital Enablement to fully leverage both Clinical Research ecosystems and Real-World Evidence/RWE in healthcare, thus enhancing the reliability, innovative capacity, agility, and, above all, speed of execution of Clinical Research activities.

By capitalizing on digital technologies, data sciences and honed industry expertise, **Keyrus Life Science** creates a unique value proposition.

Keyrus Life Science unlocks for its clients the means to achieve digitalization across all Life Science industry segments and throughout all phases of the R&D cycle, from the earliest clinical stages, through to Real World Evidence and insights in a post-marketing setting.

*"**Keyrus Life Science** fits into the **Keyrus** Group's vision and shares both its values, and its keen innovative spirit", declares Eric **Cohen**, CEO of **Keyrus**. "*Drawing upon highly original ways of using and valorizing health data, **Keyrus Life Science**'s proposition is unique in the market today. Combined with the **Keyrus** Group's longstanding Data-Digital expertise, **Keyrus Life Science**'s offering thus brings innovative and concrete solutions to companies in this sector to help them provide effective answers to the major health issues."**
