

KEYRUS

QLIKVIEW FOR DEVELOPERS TRAINING

Enhance your team's effectiveness and fast-track response to changing business requirements with certified instructor-led QlikView training.

Keyrus is a strategic and global Qlik® partner with a relationship spanning over a decade. With the largest Qlik certified team in South Africa and expertise in Business Intelligence and Data Analytics, Keyrus is perfectly positioned to deliver engaging and empowering QlikView® training.

Whether you require modular training or an entire curriculum, Keyrus has the expertise to deliver quality QlikView training to you or your organisation.

WHAT IS QLIKVIEW?

QlikView is a Business Intelligence platform that empowers you to discover deeper insights by building your own rich, guided analytics applications with a flexible, business ready solution. The software enables users to transform data into knowledge and fast-tracks response to changing business requirements.

TRAINING PARTNER OF CHOICE

LEADING DATA VISUALISATION AND BI TOOL

Repeatedly rated by Gartner as a leader in visual analytics and Business Intelligence, QlikView continues to perfectly meet the requirements of numerous companies across various industries.

CERTIFIED TRAINERS

Keyrus trainers are officially Qlik certified and have a vast amount of experience training hundreds of people across different industries.

BI EXPERTS

Keyrus is a global leader in consulting for business intelligence, data analytics and performance management. With the largest Qlik certified team in South Africa, we are perfectly positioned to deliver the highest quality training.

CONSECUTIVE VS SPLIT DELIVERY

The course can be taken over four consecutive days or may be split in two. Split sessions enable candidates to put their newfound skills into practical work examples before enhancing these skills.

ONSITE OR OFFSITE TRAINING AVAILABLE

Whether you need trainers to arrive at your premises or prefer an offsite classroom arrangement, Keyrus can accommodate.

TRAINING COURSE OUTLINE: (4 DAYS TOTAL)

QlikView for Developers is a comprehensive course that teaches a full spectrum of QlikView concepts, split into QlikView Designer and QlikView Developer. Keyrus has secured the rights to teach using the 'QlikView for Developers' training book (by Barry Harmsen & Miguel Ángel García). Each participant will receive a copy of this book for later reference.

THE QLIKVIEW TRAINING COURSE COVERS THE FOLLOWING TOPICS:

QLIKVIEW COURSE: DESIGNER

2 DAYS

The first half of the course will cover QlikView designer elements with an emphasis on the front end of the program.

DESIGNER OUTLINE:

- Meet QlikView
- Data Sources
- Data Modelling
- Styling up
- Building Dashboards
- Scripting

QLIKVIEW COURSE: DEVELOPER

2 DAYS

The remaining two days are then scheduled one to two weeks later and covers more advanced QlikView developer topics.

DEVELOPER OUTLINE:

- Data Modelling Best Practices
- Basic Data Transformation
- Advanced Expressions
- Set Analysis and Point in Time Reporting
- Advanced Data Transformation
- More on Visual Design and User Experience
- Security

PREREQUISITES

You will need to bring your own laptop with QlikView Local Client installed – we can install QlikView Professional if you do not have a licensed version on your machine. Some Excel skills will be helpful. SQL query knowledge is beneficial although not compulsory.
